CV Audit

Pass the first read.

Before a captain calls you, someone reads your CV. The CV Audit measures yours against the standard the 40 m+ fleet applies, shows you exactly what gets you filtered, and gives you back a CV rebuilt by hand, with every date checked against your own documents.

HOW IT WORKS

01 · YOU SEND

Your CV, with your certificates and diplomas if you have them. They let us check every date from the start.

02 · WE WORK

An AI-powered audit, supervised by our team, reads every line against the standard of the 40 m+ fleet: target role, sea service, certificates and their validity, chronology, presentation.

03 · YOU RECEIVE

Within 72 hours, your confidential dossier and your CV rebuilt by hand. If a date needs a document we do not have yet, we ask you for it before finalising.

WHY IT MATTERS

Captains, crew agents and management companies screen fast. Certificates listed without dates, sea time nobody can total and a target role nobody can find: that is where qualified crew are passed over, with the right credentials in hand.

> *"I read everything carefully — all looks good to me. Great job. I have just signed on a 96m yacht, so the timing could not have been better."*
>
> Chief Engineer Unlimited · 96m programme · verified client
