WHEN RECRUITERS LOOK YOU UP

LinkedIn Profile

They will look you up.

A captain, a crew agent or a management company rarely stops at the CV: before shortlisting, they look you up. We rewrite your LinkedIn profile from your verified data, so that it tells the same story as your CV, in a form made to be read on a phone.

PRICE	DELIVERY	YOU RECEIVE	YOUR ACCOUNT
€49	5 working days	PDF + Word	Never accessed
€39 for CV Audit clients	from payment	ready-to-paste pack	you paste the texts

HOW IT WORKS

01 · YOU SEND

Your CV, your certificates and diplomas, and the address of your LinkedIn profile.

02 · WE WORK

We use only your CV, your verified documents and what you write to us. The facts stay identical, character for character: only the form changes.

03 · YOU RECEIVE

Within five working days, your LinkedIn Profile Pack, every key fact checked line by line against your CV.

WHY IT MATTERS

Most crew profiles were written once, years ago, and never updated, or copied word for word from the CV. The first thing an experienced recruiter compares is consistency: titles, vessels, dates and licences. A profile that contradicts the CV raises a question you are not there to answer; one that matches it reinforces your application.

WHAT YOU RECEIVE

Headline	Three options stating your main licence, current role and target position.
About	150 to 250 words, in the first person, in short paragraphs, written for the phone.
Experience	One entry per position: exact title, vessel and dates from your CV, a line of vessel details, two or three bullet points.
Licences and skills	Your main licences with issuing body, number and validity; ten to fifteen skills from your competencies.
Consistency table and guide	Every key fact of your CV compared with LinkedIn, and where to paste each section.

OUR RULES

- No access to your account is ever needed.
- Owners, guests, charterers and private itineraries are never mentioned.
- The pack is delivered as final: no revision round.
- Posts and content creation are not part of this service.
