The Broker Room

Belong in the room.

For aspiring brokers and for yacht sales, charter and luxury client-relations profiles. In brokerage, nobody is hired for a certificate: they are hired because they already present as someone who belongs in the room. We audit how you position yourself, then rebuild your CV, your LinkedIn and your pitch.

HOW IT WORKS

01 · YOU SEND

Your CV, your certificates and diplomas, and the address of your LinkedIn profile.

02 · WE WORK

A positioning audit on four dimensions, scored, with prioritised recommendations drawn from your own material.

03 · YOU RECEIVE

Your CV rebuilt as a first version for your review, then the final version, with your LinkedIn rewritten and your positioning pitch.

WHY IT MATTERS

Brokerage houses receive a steady stream of hopefuls who describe themselves as “passionate” and “aspiring”. Decision-makers look for someone who already presents as a credible operator in a high-net-worth environment. For these roles, your CV and above all your LinkedIn profile work as a sales instrument.

WHAT YOU RECEIVE

Positioning audit	Four dimensions, scored: positioning and narrative, credibility and proof, market alignment, digital presence.
CV rebuild	A first version for your review, then the final, client-ready version, in PDF and editable format.
LinkedIn rewrite	Headline, About and experience, written as a sales instrument.
Positioning pitch	Short and long, for every conversation.
Market targeting	The houses, segments and roles to aim for, and a full narrative repositioning if you are switching into yachting.

OUR RULES

- A document service: no hourly coaching, no advisory calls.
- Built from your own record: nothing is invented.
- Written by a team with 30 years inside the yachting industry.
- For shoreside roles. Crew at sea: see the CV Audit.

BEFORE YOU BOOK

I am switching into yachting from another sector.

That is part of the service: the narrative is repositioned so that your experience reads as value to a brokerage.

Is the LinkedIn rewrite included?

Yes: headline, About and experience are rewritten as part of the package.
